

Digital Tigers Limited Warranty

Products Covered by this Warranty

- Zenview LCD displays
- UltraFlex LCD displays

Length of Warranty Period

- Term: Three (3) Years

Digital Tigers and its LCD panel manufacturing partners warrant this display product against defects in materials and workmanship under normal use for a period of THREE (3) YEARS from the date of purchase by the original end-user purchaser (“Warranty Period”).

The warranty covers both the display mounting and the LCD panels. For LCD panels, Digital Tigers acts as the reseller for the original equipment manufacturer (OEM) that manufactured the LCD panel.

Warranty Service: Mounting

If a hardware defect arises for the display mounting and a valid claim is received within the Warranty Period, at its option Digital Tigers will either (1) exchange the component part or mounting system with a component or mounting system that is new or equivalent to new in performance and reliability and is at least functionally equivalent to the original component / mounting system, (2) repair the hardware defect at no charge, using new or parts equivalent to new in performance and reliability, or (3) refund the purchase price of the product.

Generally, Digital Tigers will request that you replace defective parts or mounting system with new or refurbished user-installable parts that Digital Tigers provides in fulfillment of its warranty obligation. A replacement product or part assumes the remaining warranty of the original product.

Warranty Service: LCD Panels

Digital Tigers acts as the reseller for the original equipment manufacturer (OEM) that manufactured the LCD panel(s) integrated with your UltraFlex or Zenview display. Warranty service for LCD panels is handled directly by the OEM, with Digital Tigers facilitating service on your behalf.

If a hardware defect arises and a valid claim is received within the Warranty Period, at its option the OEM will either (1) exchange the LCD panel with a product that is new or equivalent to new in performance and reliability and is at least functionally equivalent to the original product, or (2) repair the hardware defect at no charge, using new or parts equivalent to new in performance and reliability.

USA Customers: Advance Replacement Service Option

Generally, USA customers have the option of advance replacement service for LCD panels. Depending on the OEM, you may need to provide a credit card number as security during the advance replacement process. With advance replacement, the OEM will send you a replacement LCD panel, and you will send back the defective LCD panel using the same shipping box.
